

Dear Japan Society for Neonatal Health and Development ,
Hope this letter finds you all well. In the afternoon of 4th June, Japan Airlines brought millions of vaccines which represent the precious friendship from Japan. All Taiwanese are deeply in touch and appreciate having help from friends at this critical moment. We have learned and met with neonatologists of Japan for a long time which leaves many good memories. We would like to express our gratitude to you on behalf of all the members of society. Please also show our gratitude to all your friends and the government. The COVID- 19 virus is easy to mutate, we might have difficulties to overcome in the future, but with friends to support each other, we definitely could overcome this pandemic as in the history of any disaster. We believe we shall meet soon and exchange our experience on the anti-virus road together. In this most difficult time, we sincerely hope that you and your family will be peaceful and safety. Once again, thank you so much for your generous hospitality. May the friendship between Japan and Taiwan last forever. Thank you so much for your generous hospitality,

Hung-Chih Lin

President, Taiwan Society of Neonatology

Mei-Jy Jeng

Secretary General, Taiwan Society of Neonatology

Shu-Chi Mu

Chairman, International Affairs Committee, Taiwan Society of Neonatology
